

Planning production for your fresh operations is critical to avoiding unnecessary shrink and optimizing labor hours. Excess overstock is costly with poorly or manually managed fresh ordering and replenishment processes leading to unnecessary waste.

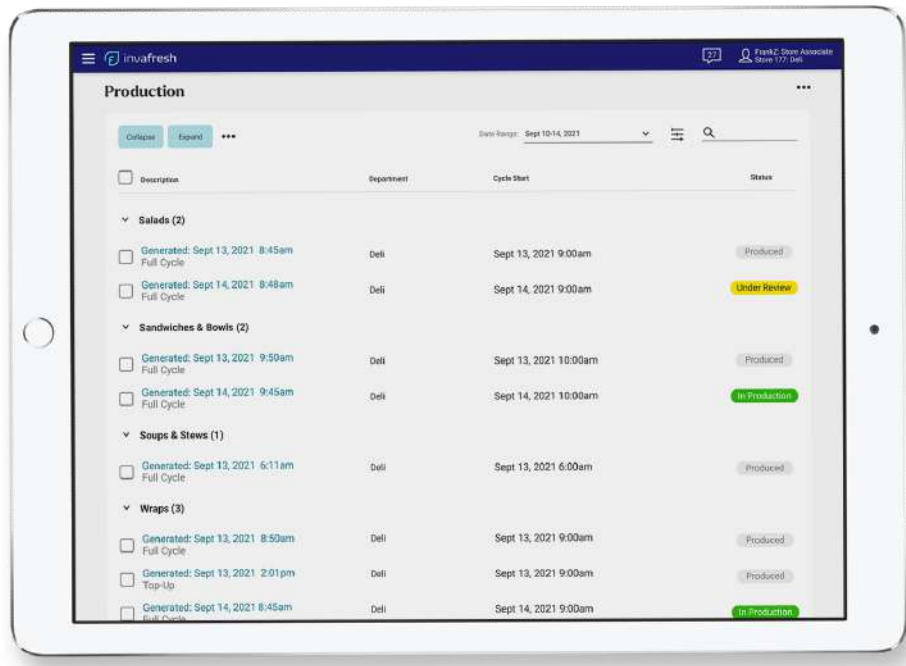

Eliminate guess work and standardize in-store production planning

and drive sustainability with the industry leading solution designed for fresh grocery operations. Reduce unnecessary shrink and save labor hours with accurate, just-in-time, production recommendations and the most accurate fresh retail forecast available on the market today.

Features

- 1 Fresh Intelligent Forecasting**
Accurately forecast your future fresh food retail item sales for any demand period, whether it be measured in minutes, hours, or days.
- 2 Flexible Production Plan Configurability**
Configure your production plans to appropriate item groups and times that align production recommendations to the different and varied needs of all fresh grocery categories to deliver full assortment control over merchandising.
- 3 Single & Multi-Stage Production Support**
Generate multi-stage production leveraging sub-recipes including accurate ingredient pick lists with Recipe Management integration, ensuring you the most efficient execution of production within fresh grocery categories. .
- 4 Fully Integrated with Inventory Management for Fresh Retail Items**
Integrate with real-time fresh inventory balance on-hand quantities, ensuring you the most accurate production recommendations to reduce over production.
- 5 Comprehensive Production Compliance & Audit Reporting**
Measure the quality of your in-store operator performance that aligns with your best practices, reinforcing the core principle that "good execution equals good results".
- 6 Omni-Device Support**
Paperless production planning ensures you the most up-to-date information and a platform for timely communication and alerting to in-store associates.
- 7 Out of Stock Tracking & Alerting**
Track, measure, and receive alerts on your out-of-stock fresh retail items produced in-store after and before they happen.
